<p>EE&amp;T students are now allowed to take <b>ONE</b> general education course offered by the Faculty of Engineering from the following list:</p>	
<p>ENE1011, GENE1012, GENE1014, GENE6002, GENE6003, GENE6004, GENE6005, GENE7801, GENE7001, GENE8000, GENE8001.</p>	

- 1) 6UOC (ONLY) of language courses may be taken subject to approval.
- 2) First Aid Course is no longer possible to substitute as a GE for students who start the course after 14 November, 2002.
- 3) As with all your enrolments, just because the system allows you to enrol, does not mean that the course will count towards your degree. Please consider carefully before choosing your Gened. If in any doubt, contact the School Office, Dr Ambi or Dr. Skinner.
- 4) Please see the [General Education Website](#) for all GENXXXXX courses offered.

**Note:****General Education Requirements**

Students in each program must satisfy the General Education course requirement of that program. No General Education courses may be taken until at least 48UOC has been attempted. The General Education course requirement is normally 12 UOC, must be taken from at least two different Faculties, and is usually taken in the second and third years of study. As a general rule, students may not enrol in General Education courses which are similar in content to courses offered in their respective programs, with a maximum of 3UOC of General Education courses able to be taken from the Faculty of Engineering.

Each Faculty has responsibility for deciding what courses may be counted towards the General Education requirement for the students in their programs. The Faculty of Engineering is committed to providing the widest range of choice of general education electives for its students and strongly encourages students to make the best use of this flexibility.

For a comprehensive list of available courses, see
